Sri Krishnayanamaha.

Bangalore, 20-3 -20.

May it please your Highness,

It is with great regret that the following few facts are brought to your Gracious Highness's notice with a view to see if the matters could be easily mended at its earliest stage as the well known proverb goes to say2" A stich in time saves nine".

The present formation of Government consists of a set of whimsical administrators who care for no principles or justice in discharging their duties each taking advantage of the meekness of the present Dewan. A few recent events will e clearly show how this fact can be easily ascertained.

While filling up the vacancy of the District Judge's - place of Bangalore, there was almost a farce, the Ist. Councillor pressing for the appointment of Mr. Hiranyayya and Mr. Anyayapathi Madhava Rao for the place without any rhyme or - reason except to get his busum friend Mr. N. M., third Councillor advancing his vehement vote for Mr.Taj Peeran, and the second Councillor quietly waching the fun and backing the - Dewan in proposing the names of Officers in the Judicial line recommended by the Chief Court. Is this not a child's play? In former days they had ruled that when any Officer was about to be retired he was given a chance of promotion whether fit or unfit, hence achance could have been given to Mr. Lakshminarnia Sub Judge of Bangalore, taking into consideration his short time of retirement, who now feels disgraced.

The increment proposed to the Secretarait clerks is still in hot discussion whereasthe increase of pay to other Departments is unnecessarily referred to the Finance Committee .It is not known when this Commitee comes into existance.

Another peculiar incident ~~is~~ not to be omitted in connection

with another unfortunate man is, that the Dewan who was convinced of sheer injustice done to an Amildar who was removed from service at the instance and shortsighted policy and hasty temparament of Mr. Banerji about two years back was again sent to the Councillors for favour of opinion on the strength of the strong notes left by the successive Dewans on the further representation of the affected party who now begged the Govt. to allow him the privilege of seeing the records for approaching your Highness with his last prayer by placing before your Highness the facts of injustice done to him, though in fact the valuable notes of the Chief Secretary and the two successive Dewans will themselves speak how his case has been dealt with. When this file was submitted to the Ist. Councillor he seems to have lost his temper and went on saying "what nonsense is this? How can this quesrion be racked up again, I will see its end & &" and then jotted his hasty remarks with avengence. This clearly shows what grudge he bears towards an innocent creature. The 2nd. Councillor and the third as well appear to have simply passed off the file with no remarks of their own. If it be so where is justice to come? Is not the affected party entitled to see the recrds which have cost him his appointment? Is this not a fit case for your Gracious Highness to look into and right the wrong done to an unfortunate man out of pity and mercy, The Dewan would have done well to have taken this file for the personal orders of His Highness when he was convinced that injustice was done in this case. Even now it is not too late, Evidently Mr. Banerji is determined to see that this case must not be reopened lest his honour will be at stake a poor man to suffer on account of the spite of one of the highest Officers of Govt? Is it Statesmanlike for Mr, Banerji to behave like this?

One more thing and I will have done. It seems that Mr. K. R. Srinivasa Iyengar proposes to celebrate the marriage of his son at Bangalore and therefore wishes to have his leave cancelled, for what purpose it could be your Highness may know. He is one of the most dishonest Officers of the Govt. who has brought discredit to Govt. He got Rs. 5000/ in one night in Guru Rao murder case, and so many others. He is well known to grow vegetables and sell them and thus make money .
